

PEER EXCHANGE NETWORK

- For Senior Leaders in Manufacturing

You are invited...

A new “true” Peer Exchange is being developed with Senior Leaders that are open and committed to helping each other improve for their own personal development, that of their organization and in turn impacting their own community as an “employer of choice”?

A diverse group of Senior Manufacturing Leaders will be engaging in candid conversations over what their challenges are, some possible solutions and opportunities in how we can all help each other improve our productivity, engagement and results.

Who is being invited: Senior Leaders, Directors, Owners, and Senior Level Decision Makers only

Join us in this Exchange as we discuss the pain points affecting all manufacturers and explore the benefits of Peer Collaboration.

Our Host: Skyjack - a Linamar Company

Skyjack proudly provides quality engineered, simple and reliable access and material handling equipment globally, so that companies can maximize utilization and their return on investment. All Skyjack’s products are designed to be easy to service and maintain. By keeping design simple and using proven technology, the reliability and ease of service is common to all the company’s products. Because of this, Skyjack machines offer the rental industry’s best life cycle value through low cost of ownership, ease of service and maintenance, while retaining high residual values.
